DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: Applicant's claim to U.S. Serial No. 09/031,923 on page 1, lines 1-3 should also include the U.S. Patent No. 6,040,045.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Referring to claim 1, it is confusing as to whether "which comprises" refers to the plastic products or the pigment.

Referring to claim 3, the use of "new bold" renders the claim indefinite because it is not clearly defined and the claim is improperly dependant on a method of making a particulate, where the instant claim is drawn to a method of making a surfacing material.

3. Claims 5 and 6 recite the limitation "the plastic" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

4. Claims 1-6 would be allowable if amended as indicated in the Interview Summary attachment to overcome the rejections under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 1732

Conclusion
